New Soft Fall Surface

On Monday, our new soft fall surface was installed under our COLA and it looks fantastic. The children are looking forward to being able to play on it. Hopefully the surface will be cured by the end of the week. We would like to thank the P and C and Mittagong RSL for their efforts in raising the funds for this worthwhile project.

Kangaloon’s Got Talent

Kangaloon’s Got Talent is shaping up to be another fantastic morning of entertainment and scrumptious food. Many of the children have started rehearsing for the Talent Show and, as always, they are very excited about performing for their families and friends. We will be holding a full dress rehearsal next Thursday 21st May at the hall. Please remember to come along on Friday 22nd May at 10 am for our talent show and morning tea. All proceeds will go to the Cancer Council.

Mother’s Day

We hope that all of our mums had a wonderful Mother’s Day on Sunday and that you enjoyed your beautiful scarves and cards. A big thank you again to Harriet and Sharon for their creativity and kindness.

Healthy Kids

Health Star Rating (HSR) system

The energy level in food is measured in kilojoules. The HSR on the front of food packages provides an at-a-glance overall rating of the healthiness of the food product (reflected as a star rating), as well as specific nutrient and energy information. The more stars, the healthier the choice.

Fact No. 4 - 8,700 kJ per day is used as an approximate figure for the ‘average’ Australian to maintain their weight. School age children need slightly less, but active adolescent boys need more!
